Subject: say no to water permit for 7000 homes SE AZ

Hello Stella,

Please do not allow more water usage from the SAN PEDRO for the 7000 homes.

We are AZ residents and Birders. We have seen development in Eastern Tucson that has dried up ponds at Aqua Caliente Park. Ground water tables have dropped as residents use water for pools, grass and other high usage items. Bird populations have reduced at a remarkable rate...perhaps up to 75% in the last number of years, according to the counts done by tucson audubon.

As you may know, the San Pedro supports nearly 140 bird species, and a large number of mammals and amphibians.

The birding industery is a million dollar industry in AZ.

Please tell me how I can be involved to stop this from happening and forward my email to those who might respond to it.

thanks so much.
