Re: Application for a Designation of Water Adequacy for Pueblo Del Sol Water Company, Cochise County, Arizona

Dear Doug:

Please accept the attached application and supporting hydrologic study for a Designation of Water Adequacy for Pueblo Del Sol Water Company (PDS). PDS has a Certificate of Convenience and Necessity (CCN) located in Sierra Vista, Arizona in Cochise County. The owner, Castle and Cooke Arizona, Inc., is also the developer of the Tribute Master Planned Community, which will be served by PDS. Tribute MPC consists of 6,959 residential lots on 1,916 acres and comprises most of the remaining undeveloped land within PDS's service area. The owner retained Fluid Solutions and Brown and Caldwell to complete a numerical groundwater model of the subject area in order to establish an adequate water supply. One complete paper copy and one complete electronic copy of that study is included with this application.

We are unable at this time to submit the fee check and a copy of a Decision and Order from the Arizona Corporation Commission (ACC). The fee check has been requested from Castle and Cooke's offices in California and is expected to arrive within the next week. The Decision and Order was originally issued by the ACC in 1972 and a copy is unavailable from the ACC's website. Please advise if a copy of the existing Decision and Order is strictly necessary.

Please contact me if you have any questions. Thank you for your assistance.

Sincerely,
Fluid Solutions

Christa M. McJunkin
Water Resource Analyst
